TECHNICAL DETAILS

- Our products are ideal for various sectors (colleges, hospitals, homes, catering establishment, etc).
- It reduces the weight considerably compared to those made of stainless steel.
- As they are made of polypropylene, they are flexible, which allows them to bend and not break in contrast to what happens with single-use ones.
- It is provided with grooves in the handle that helps its use, making it more ergonomic.
- Unbreakable under normal conditions of use.
- Suitable for use in dishwashers and for heating in microwaves.
- Will withstand temperatures between -40° and 100°.
