TECHNICAL DETAILS

- Our products are ideal for various sectors (colleges, hospitals, homes, catering establishment, etc).
- The lid has a tab around it to facilitate its opening.
- Virtually unbreakable if used correctly.
- It contains 2 holes in the upper part of the lid to avoid the vacuum effect and eliminates the possibility of the lid opening with hot contents.
- It is equipped with a top projection for stacking with the bottom of the mug.
- Lid designed without cavities that facilitates cleaning and hygiene.
- Close hermetically to avoid spilling the liquid it contains.
- Suitable for use in dishwashers and for heating in microwaves.
- Will withstand temperatures between -30° and 120°.
