TECHNICAL DETAILS

- Our products are ideal for various sectors (colleges, hospitals, homes, catering establishment, etc).
- Made of polycarbonate for being a type of plastic resistant to shocks, washed in industrial dishwashers and used for intensive daily use.
- Much lighter than those made of stainless steel.
- Stackable tray thanks to its anti-snapping stops and its lateral slits that allow easy removal once stacked. Equipped with holes for proper drying once stacked.
- Composed of five compartments: two large to place food (800 cc), Two small, (250 cc) to place glass / bread / fruit ... and in the middle a hole to place cutlery.
- Provided with anti-lace tabs at the corners that in turn allow the piece to be used as a cover or base.
- It does not initially transmit temperature variations to the food it contains.
- Will withstand temperatures between -40° and 100°.
